## **Heartland Real Estate Tops Area Sales in 2008 With \$117 Million**

SEBRING, Fla. (Jan. 7, 2009) – Heartland Real Estate Corporation (HREC) was the top-selling real estate agency in the Heartland area in 2008 with qualified Multiple Listing Service (MLS) sales of more than \$117 million in residential, agricultural and commercial real estate.

“Despite these tough economic times, people are still buying and selling real estate,” said James M. Wohl, HREC owner/broker. “With low interest rates, we see a lot of opportunity in today’s real estate market.”

With one office located in the four-story Wachovia building just south of Sebring on U.S. 27, HREC currently has four full-time and five part-time real estate agents and is seeking to expand with quality agents.

“I am proud that HREC agents seek creative ways to help buyers and sellers connect with the right property to fit their needs,” Wohl said. “Marketing is at the heart of what we do and that reflects in our 2008 sales results.”

Located in Sebring for more than 20 years, Heartland Real Estate Corporation (HREC) is a real estate brokerage and development firm with extensive knowledge in all areas of real estate investment, including development, agricultural, commercial and residential properties.
